

Hear What a Few Coaches are Saying about Sportstec...

"Sportstec is an outstanding sports video editing software that allows you to edit video clips instantly. This process is very advantageous when scouting opponents, creating breakdown tapes and providing feedback to both coaches and athletes in a timely fashion. Sportstec is very easy to use, and has been a huge time saver in preparing scouting films to give the Liberty a competitive edge."

Catherine Proto
New York Liberty

"The SportsCode Elite site license has allowed a majority of our athletic teams at the University of Virginia to take advantage of the latest in digital video editing technology. The site license also enables multiple coaches from each sport to utilize the software. Instead of one coach breaking down a game or practice, several coaches can focus on their particular area. SportsCode's user-friendly approach enables coaches of varying computer skill levels to be introduced to the software and then advance in complexity over time. The UVA athletics department views Sportstec as a valuable partner."

Todd Goodale
University of Virginia, Cavalier Sports Marketing

"Sportstec has been a great addition to our basketball program. The software is very user friendly, and the customer service is remarkable. Not only does Sportstec save us time, but it also allows us to be more efficient in our video editing. Our entire coaching staff is now able to watch and edit film in the office and on the road of our team as well as of our opponents. The most helpful aspect is how the Sportstec has benefited our players in allowing us to make personal tapes for each of them and highlight videos for the entire team. Thank you, Sportstec for your wonderful product and service."

Shaeeta Williams
Duke Women's Basketball

"Sportstec is vital to the success of our program. Everyday it makes our jobs easier and increases the basketball IQ of our players. If you don't use it you're cheating your team."

Vanessa Nygaard, Pepperdine Women's Basketball

"We love it! Our Sportstec software makes our jobs more efficient. Being short staffed this season, our video duties were made simple with our Sportstec system. With all of our traveling, I can scout opponents and watch video on flights making the most of my time. I don't have to take all those tapes with me on the road anymore!"

Pat Charity
University of Hawaii Women's Basketball

I have had the opportunity to use numerous editing systems at both the collegiate and pro level. Sportstec is by far the best system I have used. Sportstec has the ability customize both opponent and self scouting, individual player breakdown for teaching, as well as produce hi-light films. It is convenient to take on the road and has saved me countless hours and headaches! It truly is a coach's best friend!

Heidi Vanderveer
Stanford University/Seattle Storm

"It's the best system ever!"

Darryl Oliver
University of Alabama, Birmingham Women's Basketball

"Sportstec has been a tremendous asset to our program. It has allowed us to streamline our scouting and player development efforts to one unique system. Sportstec's portability, user-friendliness and mac-operating system were all reasons we chose this efficient editing software. I would recommend this software to any program in the country. It has truly helped bring our program to the next level."

Joe Tartamella
St. John's University

Hear What a Few Coaches are Saying about Sportstec...

"This is our second year using GameBreaker and we are truly happy with the program and what it allowed us to do. With GameBreaker, scouting and breaking down film is not time consuming or drawn out. We could break down players, opponents, or plays within minutes, instead of hours. I would recommend this cost effective program to anyone.

In addition to breaking down opponents and plays, each individual player was able to see specifically things they needed to improve upon and get better at. Seeing is believing, and with GameBreaker it was easy to do."

Kristi Eller
Bellarmine University Women's Basketball

"Our entire staff was able to learn and utilize the Sportstec system for scouting opponents and self-evaluation. The dependability of the Sportstec system was outstanding. It worked 100% of the time. The portability was an incredible time-saver for our program. We were immediately able to break down our games and move onto our next opponent while on a plane or bus."

Rick Pietri
South Alabama Women's Basketball

"Sportstec has made our scouting extremely efficient. The system allows us to more detailed than ever before in less time, which allows to spend more time coaching and recruiting."

Brady Sallee
Eastern Illinois Women's Basketball

Sportstec has enabled us to take our scouting, player development, and team evaluation to another level. The Big XII demands that you bring your "A" game every night. Sportstec has become a great tool in preparing our staff and players to meet this challenge. We are still finding new and exciting ways to use this great tool!

Cindy Stein
Missouri Women's Basketball

Sportstec has simplified the process of editing and breaking down film all from a laptop computer. The ease of moving the system and using it allows my staff and me to scout our opponents and create clips wherever we go. This provides an instant teaching tool for our players to watch specific film cuts of upcoming competition. The time and hassles over traditional film breakdown saved by using Sports Tec is well worth the investment. My team loved the system and my staff is hooked.

LaVonda Wagner
Oregon State Women's Basketball

Sportstec Software has been an excellent tool for our staff to use in breaking down our total game. It's quick and easy to use, producing results that can immediately be used as teaching tools for our team.

Stephanie Siler
Mississippi State University Women's Basketball

"Sportstec software has revolutionized our player feedback strategies. It simplifies the video coding and editing process dramatically. What used to take hours now takes minutes and the quality of the video is fantastic! We can easily present video to our team, work directly with an individual, or burn video on a CD or DVD for the players to take with them."

Will Callanen
Loyola Marymount Women's Basketball

"Sportstec has been a tremendous asset to me and my staff. It has assisted us in our game planning and individual breakdown of our players. The time it has saved our staff in game and scouting edits along with the convenience of it being portable has been huge for our program. Go Penguins!"

Tisha Hill
Youngstown State Women's Basketball
