Hear What a Few Coaches are Saying about Sportstec...

"I have had the opportunity to use numerous editing systems at both the collegiate and pro level. Sportstec is by far the best system I have used. Sportstec has the ability to customize both opponent and self-scouting, individual player breakdown for teaching, as well as produce hi-light films. It is convenient to take on the road and has saved me countless hours and headaches! It truly is a coach's best friend!"

Heidi Vanderveer
Seattle Storm

"The Sportstec Elite site license has allowed a majority of our athletic teams at the University of Virginia to take advantage of the latest in digital video editing technology. The site license also enables multiple coaches from each sport to utilize the software. Instead of one coach breaking down a game or practice, several coaches can focus on their particular area. SportsCode's user-friendly approach enables coaches of varying computer skill levels to be introduced to the software and then advance in complexity over time. The UVA athletics department views Sportstec as a valuable partner."

Todd Goodale, Associate Athletic Director
University of Virginia Athletics

"Sportstec has been a great addition to our basketball program. The software is very user friendly, and the customer service is remarkable. Not only does Sportstec save us time, but it also allows us to be more efficient in our video editing. Our entire coaching staff is now able to watch and edit film in the office and on the road of our team as well as of our opponents. The most helpful aspect is how the Sportstec has benefited our players in allowing us to make personal tapes for each of them and highlight videos for the entire team. Thank you, Sportstec for your wonderful product and service."

Shaeeta Williams
Duke University Women's Basketball

"Sportstec is an outstanding sports video editing software that allows you to edit video clips instantly. This process is very advantageous when scouting opponents, creating breakdown tapes and providing feedback to both coaches and athletes in a timely fashion. Sportstec is very easy to use, and has been a huge time saver in preparing scouting films to give the Liberty a competitive edge."

Catherine Proto
New York Liberty

Hear What a Few Coaches are Saying about Sportstec...

"Sportstec is vital to the success of our program. Everyday it makes our jobs easier and increases the basketball IQ of our players. If you don't use it you're cheating your team."

Vanessa Nygaard
Pepperdine University Women's Basketball

"Sportstec is an invaluable time saver for our film breakdown. Sportstec allows the coaches to watch only the film that is necessary while the Sportstec features gives the coaching staff new and interesting ways to keep our student-athletes involved during film sessions throughout the season. In addition, the individual tech support is impeccable. My support representative is always available, willing, and ready to solve any technical issues as soon as possible, which helps better manage our preparation time. Sportstec is a great product, and the support that comes with it makes Sportstec easy for anyone to use and be successful on and off the court."

Charlee Simmons
Texas A&M University Women's Basketball

"Working with Sportstec has been a terrific and easy experience. The software is top notch and the support staff is always there whenever you need them. Sportstec software has enhanced our scouting, and our own team and individual instruction. It has allowed our coaching staff to maximize our time. Sportstec has helped us in continuing our success on a national level here at Georgia!"

Katie Gilbert
University of Georgia Women's Basketball

"Sportstec has made us more efficient in our opponent scouting and has taken our team/player analysis to another level!"

Matt Legerski
University of Utah Women's Basketball

"Sportstec has simplified the process of editing and breaking down film all from a laptop computer. The ease of moving the system and using it allows my staff and me to scout our opponents and create clips wherever we go. This provides an instant teaching tool for our players to watch specific film cuts of upcoming competition. The time and hassles over traditional film breakdown saved by using Sports Tec is well worth the investment. My team loved the system and my staff is hooked."

LaVonda Wagner
Oregon State University Women's Basketball

Hear What a Few Coaches are Saying about Sportstec...

"Sportstec has allowed Baylor Women's Basketball get an edge on scouting, video breakdown, and game analysis by taking us to a higher level. The system is efficient, user-friendly and allows me to adapt to exactly what we need for our program. I would recommend this product to anyone who wants to take their program to the next level! With Sportstec I am able to take my work with me on the road and adjust to anything the coaches may need. Sportstec not only has pride in their product but cares about the customer as well by being there any-time you need! This has been the smartest and most reliable investment that we have added to our Nationally competitive program."

Meredith Doyle

Baylor University Women's Basketball

"The biggest question for me is... can I get the job done? And since 1999 when I was an assistant with the New York Liberty the answer is... YES! The worst feeling in the world is having a system that is not reliable - we've all been there. Sportstec is totally reliable, I get the job done, every time - no crashes, no freeze ups, no hassles. To me, that is priceless."

Jeff House

University of Virginia Women's Basketball

"We love it! Our Sportstec software makes our jobs more efficient. Being short staffed this season, our video duties were made simple with our Sportstec system. With all of our traveling, I can scout opponents and watch video on flights making the most of my time. I don't have to take all those tapes with me on the road anymore!"

Pat Charity

University of Hawaii Women's Basketball

"It's the best system ever!"

Darryl Oliver

University of Alabama, Birmingham Women's Basketball

"Sportstec has been a tremendous asset to our program. It has allowed us to streamline our scouting and player development efforts to one unique system. Sportstec's portability, user-friendliness and mac-operating system were all reasons we chose this efficient editing software. I would recommend this software to any program in the country. It has truly helped bring our program to the next level."

Joe Tartamella

St. John's University Women's Basketball

Hear What a Few Coaches are Saying about Sportstec...

"Sportstec has enabled us to take our scouting, player development, and team evaluation to another level. The Big XII demands that you bring your "A" game every night. Sportstec has become a great tool in preparing our staff and players to meet this challenge. We are still finding new and exciting ways to use this great tool!"

Cindy Stein

University of Missouri Women's Basketball

"This is our third year using Sportstec's GameBreaker and we are truly happy with the program and what it allowed us to do. With GameBreaker, scouting and breaking down film is not time consuming or drawn out. We could break down players, opponents, or plays within minutes, instead of hours. I would recommend this cost effective program to anyone. In addition to breaking down opponents and plays, each individual player was able to see specifically things they needed to improve upon and get better at. Seeing is believing, and with GameBreaker it was easy to do."

Kristi Eller

Bellarmine University Women's Basketball

"Our entire staff was able to learn and utilize the Sportstec system for scouting opponents and self-evaluation. The dependability of the Sportstec system was outstanding. It worked 100% of the time. The portability was an incredible time-saver for our program. We were immediately able to break down our games and move onto our next opponent while on a plane or bus."

Rick Pietri

University of South Alabama Women's Basketball

"Sportstec has been one of the most worthwhile investments for the Milwaukee Women's Basketball Program. It has decreased our editing time in half and has provided us with a wide array of editing capabilities that we have never enjoyed before. I highly recommend this product for all athletic programs."

Sandy Botham

University of Wisconsin-Milwaukee Women's Basketball

"Sportstec has made our scouting extremely efficient. The system allows us to more detailed than ever before in less time, which allows to spend more time coaching and recruiting."

Brady Sallee

Eastern Illinois University Women's Basketball

Hear What a Few Coaches are Saying about Sportstec...

"Sportstec software has revolutionized our player feedback strategies. It simplifies the video coding and editing process dramatically. What used to take hours now takes minutes and the quality of the video is fantastic! We can easily present video to our team, work directly with an individual, or burn video on a CD or DVD for the players to take with them."

Will Callanen

Loyola Marymount Women's Basketball

"Sportstec has been a tremendous asset to me and my staff. It has assisted us in our game planning and individual breakdown of our players. The time it has saved our staff in game and scouting edits along with the convenience of it being portable has been huge for our program. Go Penguins!"

Tisha Hill

Youngstown State Women's Basketball

"I use Sportstec predominantly for self-scout purposes. It is user friendly and allows me to quickly edit our games and highlight areas where we must improve. It makes team and individual video sessions much shorter and has proven to be a more effective learning tool for our student-athletes."

Julie Rousseau

Pepperdine University Women's Basketball

"The flexibility and user-friendly format of Sportstec reduced the time we spent on scouting and allowed us to be more thorough in our breakdowns. Our players recognized it as a tool that can improve their performance. We increased our win total by nine games over last season and Sportstec was a factor in the turnaround."

Mark Kost

Coastal Carolina Women's Basketball

"With Sportstec's Gambreaker we were able to take a quantum leap in video analysis & presentation. Gamebreaker was easy to learn and to use. You can start with the basics & then, add bells & whistles. It is an excellent teaching tool both for individuals and for the team as a whole. It is great for scouting opponents and transmitting information to the team. It was a great investment."

Frank Bennett

Lipscomb University Women's Basketball

Hear What a Few Coaches are Saying about Sportstec...

"Sportstec is an amazingly useful and relevant tool for the type of scouting we do in the Ivy League. It allows us to function on the cutting edge of technology with only a basic knowledge of computers....it does not overwhelm you. The software is logical and easy to learn, yet has enough functionality to do many different things. Most importantly, the people supporting this system are professional, accessible and a joy to work with. We are delighted with this product and the people behind it."

Christina Wielgus

Dartmouth College Women's Basketball

"The University of Oregon Women's Basketball program has valued both the relationship and programs that Sportstec has provided our program over the years. Sportstec's Gamebreaker has been an invaluable asset to our program in film analysis, breakdowns, and presentation preparing our players and staff for competition. You CAN'T go wrong with Sportstec as a product and a company!!!"

Selena Ho

University of Oregon Women's Basketball

"After researching several video software options, Sportstec is the one that rose to the top. We could not find any other software with all of the characteristics that appealed to our staff, which includes: being user friendly, individual player analysis, team scouting reports, and film breakdown. Sportstec has allowed us to maximize our time with student-athletes and minimize our coaches time in the video room."

Paul B. Thomas

St. Mary's College Women's Basketball

"Sportstec has provided us with a very user friendly product that fits our film editing needs. Their staff has been amazingly helpful and understanding of our budgetary concerns. We will continue to use their services because of the relationship they have nurtured these past two years."

Niecee Nelson

University of San Diego Women's Basketball

"In my first year as head coach at the varsity level, I searched for hours looking for film editing technology. I was referred to the Gamebreaker system by the staff at the WNBA's Seattle Storm. The technology is very user friendly, and definitely assisted my team in winning our schools first ever section title!"

Richard Harris

Valley Christian High School Women's Basketball
